# ABPMP International Guide to the Business Process Management Common Body of Knowledge Fourth Edition Released

8 de Noviembre del 2019

Business Process Management (BPM) is continuously evolving, and ABPMP is proud to announce the release of the fourth edition of the BPM CBOK®. While the fundamental knowledge areas underlying BPM practice remain firm, new developments require periodic updates that reflect the current BPM best practices, along with the enabling technology platforms. The new fourth version of the ABPMP Guide to the BPM Common Body of Knowledge offers more than 400 pages of the knowledge, skills and competencies integrated into best practices aligned to a BPM life cycle model.

New Topics Covered:

- Strategic Alignment and Business Architecture

- Strategy to Execution Using the BPM Life Cycle Framework
- Leadership, Organizational Design, Project and Change Management
- Evolution of iBPMS:
- Process Mining and Case Management
- Robotic Process Automation
- Big Data Analytics
- Blockchain
- Artificial Intelligence, Machine Learning, Deep Learning
- Internet of Things (IoT)

Contributions in this volume come from our members, thought leaders, practice leaders at major consultancies, industry analysts, and well-known authors in the BPM field. This guide is the standard BPM practice reference manual, which expands on the knowledge, skills and competencies required for any practitioner looking for advanced certification in BPM.

Coinciding with the 16th anniversary of the association, the ABPMP International Guide to the BPM Body of Knowledge v4.0 (BPM CBOK®) will be released in English worldwide on November 1, 2019, to members of the association as a free PDF download. It will be released (publicly sold) through the ABPMP website at www.abpmp.org and Amazon on November 11, 2019. Multi-language versions in Portuguese, Spanish, German, Russian, and French are forthcoming

NOTE: Version 3 is still valid and will be transitioned in the next 12-18 months.
